APP AND CLOUD

The extremely **intuitive** APP is used from the tablet and **guides the user throughout the entire analysis.**

The system is automatically updated through the APP.

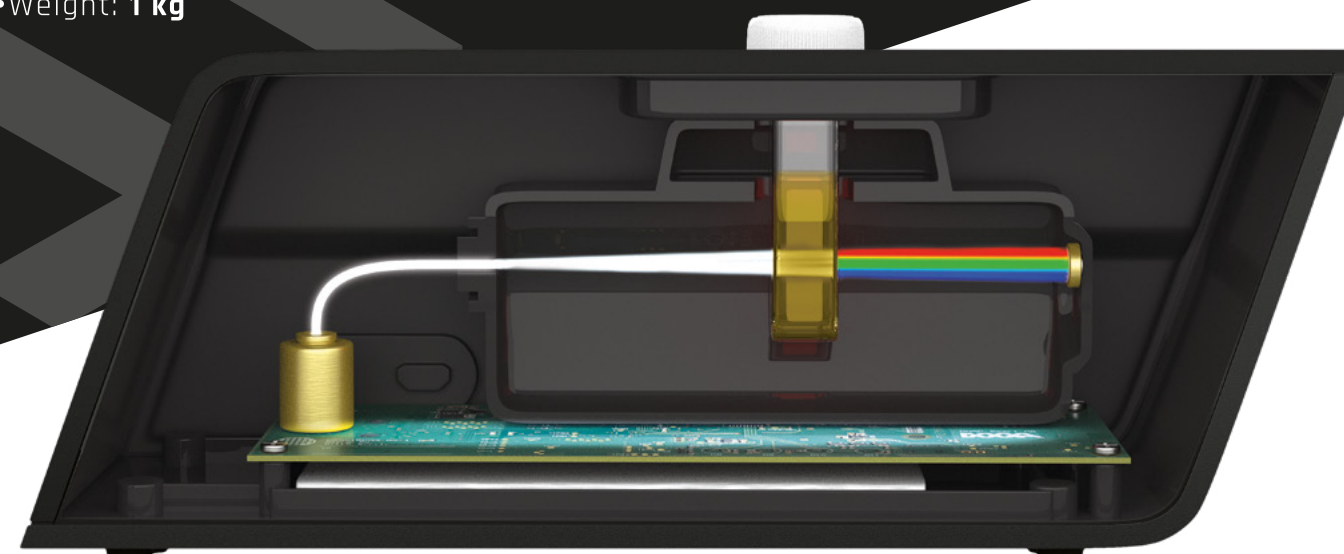

The **cloud** service allows the control and management of analysis results **anywhere, anytime.**

The **remote diagnostic** service ensures constant monitoring of the instrumentation in real time.

Smart Analysis is a portable, robust and compact device.

- Dimension: **85X75X200 mm**
- Weight: **1 kg**

wi-fi and
bluetooth

thermostated
up to **40° C**

internal battery **7 Ah**
+ **microUSB**

no
maintenance

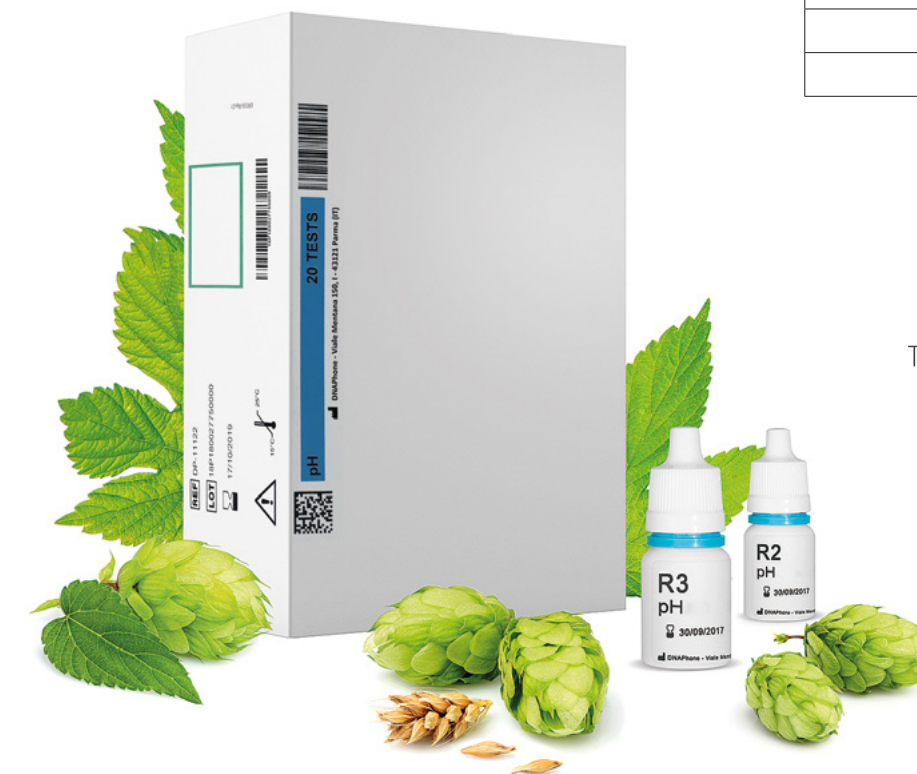

spectrum
280-760 nm

PATENTED FIBER OPTIC TECHNOLOGY AND LED SOURCES

The **simplified** analysis **methods** minimize the required manual operations.

The reagents are **pre-filled in disposable cuvettes**, associated with a dropper dispenser.

REAGENTS

BEER AND WATER

Sugars (GLU-FRU-SUC)	pH
Bicarbonate	D-Lactic Acid
Alpha Amine Nitrogen	Calcium
IBU - bitterness	Ethanol
Chloride	Potassium
Sulfate	Sugars (GLU-FRU-SUC-MAL)
Total SO2	L-Lactic acid
Color	Acetic Acid
